CAPITAL REVENUE AND EXPENDITURES (12.1 - 12.7)

This section gathers information on capital revenue and expenditures. Provide information for funds received and spent during the fiscal year report period only. If the library was awarded a grant, but only received part of the funds during the report period, report only the amount of the funds received, not the entire grant award.

Capital Revenue

Include funds received during the fiscal year report period for: site acquisitions; new building(s); additions to or renovations of existing buildings; furnishings, equipment, and initial collections for new buildings, building additions, or building renovations; computer hardware and software used to support library operations, to link to networks, or to run information products; new vehicles; or other one-time major projects.

Exclude revenue for: replacement and/or repair of existing furnishings and equipment, regular purchase of library materials, investments for capital appreciation, income passed through to another agency (e.g., fines), and funds unspent in previous fiscal year (e.g., carryover).

NOTE: Round answers to the nearest whole dollar.

PERSONNEL (13.1 - 13.46)

Include all positions funded in the library's budget whether those positions are filled or not. Report position figures as of the last day of the fiscal year. Include only paid employees. Do NOT include volunteers.

Report personnel in the appropriate categories based on the type of library work being performed rather than on an employee's educational qualifications.

The FTE (full-time equivalent/employee) calculator utilizes the IMLS/PLSC national standard for a full-time work week as 40 hours per week. Illinois libraries should report each staff member's hours per week based on the number of hours worked. If your library considers 35-39+ hours per week as a full-time work week, then report using those figures. DO NOT inflate the hours your library considers as a full-time work week in order to force the resulting calculation to equal 1 FTE. For national comparison purposes, your library must report the total hours per week based on your local standard. For example, for an Illinois library that considers 37.5 hours per week as a full-time work week, the FTE calculation reported nationally will be .9375 or .94 rather than 1.00.

PROGRAMS, ACTIVITIES & ATTENDANCE (15.1 - 15.39a)

Synchronous Programs:

A program is any planned event which introduces the group attending to any of the broad range of library services or activities or which directly provides information to participants. Programs may cover use of the library, library services, or library tours. Programs may also provide cultural, recreational, or educational information, often designed to meet a specific social need. Examples of these types of programs include film showings; lectures; story hours; literacy, English as a second language, citizenship classes; and book discussions.

Count all programs, whether held on- or off-site, or held virtually as a group that are sponsored or co-sponsored by the library. Exclude programs sponsored by other groups that use library facilities. If programs are offered as a series, count each program in the series. For example, a film series offered once a week for eight weeks should be counted as eight programs.

Exclude library activities delivered on a one-to-one basis, rather than to a group, such as one-to-one literacy tutoring, services to homebound, resume writing assistance, homework assistance, and mentoring activities.

Note: For more information, please refer to the Counting Opinions login screen for links to: "Guidance for Programs: Live Virtual and Recorded", "How to Count Programs and Activities", and "Virtual Programming Guidelines".

Self-Directed Activities:

A self-directed activity is any planned event for which the patron can participate on their own (instead of at a designated time with a group). Registration is not required. A staff member may monitor the activity, but may or may not directly interact with the participants. Examples of these types of events include drop-in craft sessions, take and make kits, library scavenger hunts (when not done as part of a group), etc.

Count all self-directed activities, whether held on- or off-site, that are sponsored or co-sponsored by the library. Exclude activities sponsored by other groups that use library facilities. If activities are offered as a series, count each activity in the series.

Note: For more information, please refer to the Counting Opinions login screen for links to: "Guidance for Programs: Live Virtual and Recorded", "How to Count Programs and Activities", and "Virtual Programming Guidelines".

RESOURCES OWNED (17.1 - 17.9)

Libraries are required by statute [75 ILCS 5/4-10(3), 75 ILCS 16/30-65(a)(6)] to provide a statement as to the number and character of items in the library's collection available for use as of the last day of the fiscal year report period.

This section of the survey collects data on selected types of materials. It does not cover all materials (i.e., microforms, loose sheet music, maps, and pictures) for which expenditures are reported under Print Materials Expenditures, Electronic Materials Expenditures, and Other Material Expenditures. Under this category report only items the library has acquired as part of the collection and cataloged, whether purchased, lease, licensed, or donated as gifts that have been purchased, leased or licensed by the library, a consortium, the state library, a donor or other person or entity. Included items must only be accessible with a valid library card or at a physical library location; inclusion in the catalog is not required. Do not include items freely available without monetary exchange. Do not include items that are permanently retained by the patron; count only items that have a set circulation period where it is available for their use. Count electronic materials at the administrative entity level; do not duplicate numbers at each branch.

Electronic Collections

Report the number of electronic collections. An electronic collection is a collection of electronically stored data or unit records (facts, bibliographic data, abstracts, texts, photographs, music, video, etc.) with a common user interface and software for the retrieval and use of the data. An electronic

collection may be organized, curated and electronically shared by the library, or rights may be provided by a third party vendor. An electronic collection may be funded by the library, or provided through cooperative agreement with other libraries, or through the State Library. Do not include electronic collections that are provided by third parties and freely linked to on the web.

Electronic Collections do not have a circulation period, and may be retained by the patron. Remote access to the collection may or may not require authentication. Unit records may or may not be included in the library's catalog; the library may or may not select individual titles. Include electronic collections that are available online or are locally hosted in the library.

Note: The data or records are usually collected with a particular intent and relate to a defined topic.

Report the number of electronic collections acquired through curation, payment or formal agreement, by source of access.

PATRON SERVICES (19.1-19.2)

This section gathers information on services the library provides to its patrons. Please fill in the information requested.

Reference Transactions

Reference Transactions are information consultations in which library staff recommend, interpret, evaluate, and/or use information resources to help others to meet particular information needs.

A reference transaction includes information and referral service as well as unscheduled individual instruction and assistance in using information sources (including web sites and computer-assisted instruction). Count Readers Advisory questions as reference transactions.

NOTE: It is essential that libraries do not include directional transactions in the report of reference transactions. Directional transactions include giving instruction for locating staff, library users, or physical features within the library. Examples of directional transactions include, "Where is the reference librarian? Where is Susan Smith? Where is the rest room? Where are the 600s? Can you help me make a photocopy?"

If an annual count is not available, then select a typical week and multiply by 52 to estimate the annual count.

One-on-one tutorials are when a staff member spends a considerable amount of time tutoring or teaching a patron on a specific subject. Note that these are different from programs, which are put on for a group, and reference transactions, which are limited to information consultations (see definition above).
